Sustainable food and diets:
From theory to evidence-based successful practice

Daniel & Nina Carasso Foundation Satellite Symposium

Technical support provided by Bioversity International

IUNS 20TH INTERNATIONAL CONGRESS OF NUTRITION

Sunday 15 September 2013, 13:30 to 18:00 hrs
Granada Conference Centre - Machado and Picasso Rooms | Paseo del Violon, S/N, 18006 Granada, Spain

Objective

Food systems are changing and populations are going through dietary transition at unprecedented speed. The consequences on the health of ecosystems and the growing world’s population makes it necessary to rethink about sustainable food and diets in terms of what they mean, how best to measure them and guide appropriate policies and programmes. This satellite symposium aims to demonstrate the added value of the sustainable food and diets concept as a research, policy and implementation tool and provide nutritionists and other health professionals with insights on how to facilitate the changes required in low, middle and high income countries towards achieving sustainable food and diets.

Space is limited, please register online: http://goo.gl/0cyBX

Draft Agenda

● 13:30 – 15:00 / 1st session*:
THE SUSTAINABLE FOOD AND DIETS AS A COHERENT AND COMPREHENSIVE MULTI-SECTORAL BRIDGING CONCEPT
Moderator: Barbara Burlingame, FAO, Italy

Sustainable food and diets
Barbara Burlingame, FAO, Italy

State of the art in the northern context
Jennie Macdiarmid, University of Aberdeen, UK

State of the art in the southern context
Emile Frison, Bioversity International, Italy

* A question and answer period will follow each session.

[NOTE: Attendees are invited to send their anticipated questions for the first session to the following email address: contact@fondation-carasso.org. Please insert the following title in the email: “Granada symposia attendee question”.

● 15:30 – 17:00 / 2nd session*:
EVIDENCE-BASED PRACTICES: SUSTAINABLE FOOD AND DIETS IN THE FIELD
Moderator: Lawrence Haddad, Institute of Development Studies, UK

Perspectives and expectations in EU food and diet policies
Tim Lang, City University London, UK

Perspectives and expectations in African food and diet policies
Joyce Kinabo, Sokoine University Of Agriculture, Tanzania

Case studies and field project implementation: field examples
Jessica Fanzo, Columbia University, USA

● 17:00 – 18:00 / 3rd session*:
ROUNDTABLE, RESEARCH GAPS & POLICY CHALLENGES
Chair: Lawrence Haddad, IDS, UK

Tony Long, WWF European Policy Office, Belgium

Timothy Johns, McGill University, Canada

Eileen Kennedy, Tufts University, USA

Sarah E. Lewis (The Sustainability Consortium, USA)

CONCLUDING REMARKS

Information

Organizers: The Daniel and Nina Carasso Foundation, with technical support from Bioversity International
